

## FLUID CONTROL VALVES

### Model VN200 Series

These fluid control valves are an economical and reliable method of controlling and dispensing common shop fluids such as engine oil, gear oil, transmission fluid, antifreeze and hydraulic fluid.

The “balanced” valve design with trigger guard allows positive fluid control for easy “topping off” without splashing. The valve is also available in a “trigger lock” version.

P/N 100113T-RA shown

Trigger lock option.

Order meter/control handle with your choice of spout and tip, for example – if you wish to order the meter and control handle with a flex spout and manual tip as shown below – then order **P/N 100113-FM**.

P/N **100113-RA**  
Fluid Control Valve **includes** rigid spout and auto tip

P/N **100113T-RA** with trigger lock

P/N **100113-FA**  
Fluid Control Valve **includes** flex spout and auto tip

P/N **100113T-FA** with trigger lock

P/N **100113-RM**  
Fluid Control Valve **includes** rigid spout and manual tip

P/N **100113T-RM** with trigger lock

P/N **100113-FM**  
Fluid Control Valve **includes** flex spout and manual tip

P/N **100113T-FM** with trigger lock

P/N **100113-RMH**  
Fluid Control Valve **includes** rigid spout and manual high flow tip

P/N **100113T-RMH** with trigger lock

P/N **100113-FMH**  
Fluid Control Valve **includes** flex spout and manual high flow tip

P/N **100113T-FMH** with trigger lock

P/N **100113-HM**  
Fluid Control Valve **includes** 3/8" x 12" hose and 1/4" manual tip

P/N **100113T-HM** with trigger lock

P/N **100113-HMH**  
Fluid Control Valve **includes** 1/2" x 12" hose and 1/2" manual high flow tip

P/N **100113T-HMH** with trigger lock
