ECONOMICAL DEF HAND PUMP SYSTEMS

P/N **560008V-S2A**

New economical DEF hand pump system uses a 4 key poly coupler that mates with standard 4 key RSV stainless steel or RPV poly valves to maintain closed system DEF product integrity per ISO 22242 specifications. This system can be used with any DEF drum or IBC tote that is provided with a 4 key valve on board. Lever action hand pump provides approximately 12 strokes per gallon. System includes:

- Lever action piston pump with poly RPV coupler
- 3/4" x 12' discharge hose
- Poly auto shutoff nozzle
- RPV 4 key coupler

P/N 560008V-S2A shown

P/N 560008V-S2M shown

P/N **560008V-S2M**

Same as 560008V-S2A above, except the auto shutoff nozzle is replaced by a manual poly nozzle.

P/N **560008V-S3AP-55**

Complete DEF hand pump system includes everything you need to outfit your 55 gallon DEF drum that was supplied to you without a suction tube or drum valve. System includes:

- Lever action piston pump with poly RPV coupler
- 3/4" x 12' discharge hose
- Poly auto shutoff nozzle
- RPV 4 key coupler
- RPV 4 key valve
- Suction tube to fit 55 gal. drum

P/N **560008V-3AP-275**

Same as 560008V-3AP-55 except suction tube length fits 275 gal. IBC totes

P/N **560008V-S3A-330**

Same as 560008V-3AP-55 except suction tube length fits 330 gal. IBC totes

P/N **560008V-S3M-55**

- Lever action piston pump with poly RPV coupler
- 3/4" x 12' discharge hose
- Poly manual nozzle
- RPV 4 key coupler
- RPV 4 key valve
- Suction tube to fit 55 gal. drum

P/N **560008V-S3M-275**

Same as 560008V-S3M-55 except suction tube length fits 275 gal. IBC totes

P/N **560008V-S3M-330**

Same as 560008V-S3M-55 except suction tube length fits 330 gal. IBC totes
